EXPERIENCE

2021-2023

Company Name : Jothi Textiles , Tirupur
Data entry operator / Graphics designer

- As a data entry operator, I managed the company's product data on the e-commerce website. Additionally, I handled customer complaints and queries. Furthermore, I worked on Photoshop editing to prepare for the daily launch of new products.

SKILLS

FRONTEND

- Html • Css • Bootstrap
- JavaScript • React

BACKEND

- Node • Express

DATABASE

- Mongodb • Firebase

OTHERS

- Github • API • MUI • Postman

SARAVANAN

Web Developer

- Hello, my name is Saravanan. I completed my BBA degree in 2020 and subsequently gained work experience in the garments sector for a few years. However, I decided to pivot my career and pursue my newfound interest in web development. I enrolled in a web development course at Skill Safari, where I honed my skills in various aspects of web development, with a focus on React. Now, I am actively seeking job opportunities to further my career growth and expand my expertise in the field of web development."

PROJECTS

OPEN QUESTION DATABASE

- This is my open question database projects, where you can add multiple questions and filter them by category.
- I developed my project using REACT, providing a seamless user experience.
- The project provided me with hands-on experience and helped me understand practical application. DEMO 

MOVIE WEBSITE

- In my movie website project, users can securely create an accounts, search for any movie, and apply filters. It's helpful for selecting movies based on your preference and situation.
- I created it using React and a movie API, which displays updated movies on the website. Additionally, I incorporated material UI .
- Finally , it provided me with valuable knowledge about API's and packages. DEMO 

QUIZ GAME

- Our quiz game website is an engaging platform that offers a fun and educational experience for users of all ages.
- Powered by the MERN, and hosted using Cyclic for the backend and Vercel for the frontend, our website combines the latest web technologies with a vast database of challenging quizzes.
- It has provided me with valuable practical knowledge about databases and servers. DEMO
