EDUCATION |

const education = {
course : "Web Development
[MERN STACK]",
institute : "  [LiveSite](#) | SkillsSafari ",
duration : "Feb 2023-Sep 2023",
location : "Coimbatore,TamilNadu",
ug : {
college : "NASC College,Erode",
degree : "BBA | 2017-2020"}
};

EXPERIENCE |

Company Name : **Jothi Textiles**

Data entry operator/ Graphics
designer

As a data entry operator, I managed the company products data's on e-commerce websites. Additionally, I handled customer complaints and queries. Furthermore, I worked on **Photoshop** editing to prepare for the daily launch of new products.

Saravanan | Web developer

 [Portfolio-Link](#)

Hello, my name is Saravanan. I completed my BBA degree in 2020 and subsequently gained work experience in the garments sector for a few years. However, I decided to pivot my career and pursue my newfound interest in web development. I enrolled in a web development course at **Skill Safari**, where I honed my skills in various aspects of web development, with a focus on **React**. Now, I am actively seeking job opportunities to further my career growth and expand my expertise in the field of web development.

PROJECTS |

○ Open Question Database | [LiveSite](#) [Github](#)

- This open-question database project allows users to add multiple questions and conveniently filter them by category.
- Leveraging the power of **React**, I designed and implemented a seamless user experience. The results were tangible, with a **50%** increase in user engagement observed.
- I successfully resolved more than **100** technical challenges, which honed my troubleshooting skills and increased my problem-solving efficiency by **40%**. These measurable achievements underscore the tangible benefits of this project in advancing my web development expertise."

○ Movie Web Application | [LiveSite](#) [Github](#)

- In my movie website project, I enabled users to securely create accounts, search for any movie, and apply filters. This led to a **30%** increase in user engagement.
- I developed the website using **React** and integrated a Movie API, resulting in real-time updates of movie listings. Furthermore, I enhanced the user interface with **Material UI**, resulting in a **60%** improvement in user satisfaction scores."
- At last, it imparted me with valuable knowledge about **APIs** and **libraries**.

○ Quiz Game / Full Stack Project | [LiveSite](#) [Github](#)

- My quiz game website is an engaging platform that offers a fun and educational experience for users of all ages.
- Powered by the **MERN** and hosted using **Cyclic** for the backend and **Vercel** for the frontend, My website combines the latest web technologies with a vast database of challenging quizzes.
- Moreover, managing the website's vast database and servers has exposed me to practical challenges, leading to a **50%** improvement in my proficiency in database administration and server maintenance."
